Doubling and halving

6 practice questions

1. Find double 4.

$4 + 4 = 8$.

Answer: 8

2. Find double 10.

$10 + 10 = 20$.

Answer: 20

3. Find half of 18.

$9 + 9 = 18$.

Answer: 9

4. Share 14 marbles into 2 equal groups. How many in each?

$7 + 7 = 14$.

Answer: 7 marbles.

5. A number doubled is 12. What was the number?

$6 + 6 = 12$.

Answer: 6

6. Is double 3 the same as $3 + 2$? Explain.

Doubling joins two copies of the original amount.

Answer: No. Double 3 is 6, while $3 + 2$ is 5.
