Practice worksheet | Statistics

Guided question-to-conclusion investigation

Name: _____ Date: _____

6 practice questions

1. Which is clearer: “Travel?” or “How did children in Room 3 travel to school today?” Explain.

2. A class has 20 children, but 2 are absent. How many responses can a one-answer survey collect from children present?

3. Give two useful column headings for a favourite-fruit table.

4. Check the travel table total and name its most common way.

Sample data: How 12 children travelled to school today

Way	Children
Walk	4
Car	6
Bus	2

5. Use the travel table to compare walking with bus travel.

Sample data: How 12 children travelled to school today

Way	Children
Walk	4
Car	6
Bus	2

6. Give one reason travel results on Monday might differ from Friday.
